Planning pointers

Everything goes better with a little planning. Here are some quick pointers on how to plan a successful night and help us raise money for our local breast cancer support services.

The setting

The setting doesn't have to be fancy. Remember, it's about friends coming together for a good cause. So keep it simple and convenient.

Food and drink

Unless fancy food or drink is the theme of your party, it's best to keep things simple. Make refreshments quick to prepare and finger-friendly.

Need help?

If it's all too much for one gal to handle, ask your friends to help. You can also contact the **Go Pink** fundraising team for napkins, balloons, buckets and more to dress up your party.
