Nurseline

Cancer Information and Support

We believe it helps to talk about cancer.

Cancer Focus NI is the only local cancer charity to provide free cancer information and support line for patients, their families, friends, health professionals as well as members of the public.

This cancer information and support service is there to provide an opportunity to talk about a wide range of issues related to cancer.

What to expect?

This free and confidential information and support service is there to provide clarity and a kind listening ear to those impacted or confused by cancer.

Support provided:

- How to access care when you need it
- Any worries or concerns you might have
- Clarification of information already given
- How to have conversations about the things that matter most
- Signposting to other services
- Or anything else on your mind related to cancer

About the service

The service is run by local experienced nurses who will provide a listening ear to advise on any cancer related issue. If the Nurseline is busy simply leave a voice message, one of the team will get back to you when next available.

It is because of generous donations that we can continue to deliver vital complimentary cancer support services to local people and families. To donate to or support our charity, please email fundraising@cancerfocusni.org

‘It helps to talk. We are here to listen. We may not have all the answers, but we do know where to direct callers to get the information and support they need.’
